Story title

As a Food Blogger and event planner, I want to explore latest recipes on the website

Notes:

Provide a button called “Explore latest” which shows the newly added recipes

Estimated time:

2-3 hrs

Action performed

Accessing the Latest Recipe

Expected outcome

The Food Blogger easily locates and accesses the latest recipe prominently displayed on the website's homepage or in a designated section, allowing them to explore the recipe's content and details.

Action performed

Exploring the Recipe Content

Expected outcome

After clicking on the link or button for the latest recipe, the Food Blogger finds high-quality images, a comprehensive description, step-by-step instructions, and ingredient lists. This enables them to thoroughly explore the recipe and consider featuring it in their content.

Story title

Ability to Write Special Notes in Recipe

Notes:

Estimated time:

2-3 weeks

Action performed

Adding Special Notes to a Recipe

Expected outcome

The Event Planner accesses the menu management system and successfully adds customized special notes or instructions to a specific recipe. These notes can include dietary restrictions, allergy information, and serving suggestions tailored to that particular dish.

Action performed

Displaying Special Notes in the Menu

Expected outcome

After adding special notes to the recipes, the Event Planner expects these notes to be prominently displayed alongside their respective recipes in the event menu. This ensures that event attendees can easily access and view the notes when browsing the menu, helping them make informed choices based on their dietary preferences and needs.

Story title

As a Guest User, I want to navigate the website to learn about its purpose, read testimonials, and easily find a way to contact the team.

Notes:

Dont ask the guest user to log in when he is exploring the basics of the website

Estimated time:

1 week

Action performed

Exploring the Website's Purpose

Expected outcome

The guest user navigates to the "About Us" section and gains a clear understanding of the website's mission and objectives, helping them contextualize the website's content and offerings.

Action performed

Viewing Testimonials

Expected outcome

The guest user finds and reads testimonials from previous users or customers, gaining confidence in the website's credibility and the positive experiences of others who have used its services.

Story title

As an administrator and recipe contributor, I need to manage user-generated content, including recipes and user accounts.

Notes:

Verify the administrator from his code

Estimated time:

2-3 weeks

Action performed

Log in to the system as an administrator or recipe contributor.

Expected outcome

Successfully access the dashboard with options to manage content.

Action performed

Navigate to the "Recipe Management" section of the dashboard.

Expected outcome

See a list of user-generated recipes and associated user accounts.

Action performed

Click on a user account to view details or click on a recipe card to edit a recipe.

Expected outcome

Be directed to the appropriate user account details or recipe editing page.

Story title

As a home cook or recipe collector, I want to view complete recipe details.

Notes:

Estimated time:

1 week

Action performed

Click on a recipe card from the homepage or search results.

Expected outcome

A new page opens displaying the complete recipe details, including ingredients, instructions and recipe photo.

Action performed

Scroll through the recipe details to view ingredients and cooking instructions.

Expected outcome

Easily read and understand the recipe.

Action performed

Click a button to add the recipe to a personal collection or mark it as a favorite.

Expected outcome

Recipe is added to the user's collection for future reference.

Story title

As a recipe collector, I want a button which gives me random recipes to try for fun.

Notes:

Estimated time:

1-2 days

Action performed

Click the "Random Recipe" button on the homepage.

Expected outcome

The system selects and displays a random recipe from the database.

Action performed

View the selected random recipe details.

Expected outcome

See a complete recipe with ingredients, instructions, and user comments for the chosen recipe.

Action performed

Decide to either cook the randomly selected recipe or go back to the homepage for more options.

Expected outcome

Engage with the chosen recipe or continue browsing for other options.

Story title

As a recipe contributor, I want to make improvements to my existing recipes.

Notes:

Estimated time:

1 week

Action performed

Log in to the system as a recipe contributor.

Expected outcome

Access the dashboard with options to manage recipes.

Action performed

Navigate to the "My Recipes" section and select the recipe to be edited.

Expected outcome

The selected recipe is loaded for editing.

Action performed

Make necessary changes, such as adding new variations or improvements to the recipe details.

Expected outcome

Successfully update and save the recipe with the modifications.

Story title

As an administrator or a recipe moderator, I want to have access to a dashboard where I can monitor and manage user-generated content, including recipes and user accounts.

Notes:

Estimated time:

1-2 weeks

Action performed

Log in with admin/moderator credentials and navigate to the dashboard.

Expected outcome

Successfully access the dashboard displaying user-generated content and account management options.

Action performed

Select "Review Recipes" from the dashboard.

Expected outcome

View a list of submitted recipes, with options to approve, edit, or reject them, ensuring the quality and appropriateness of content.

Action performed

Click on "Manage User Accounts" on the dashboard.

Expected outcome

Ability to view and take actions on user accounts, including suspending or banning users violating community guidelines, or promoting trusted users to moderators if necessary.

Story title

As an administrator or a recipe moderator, I want to have the ability to edit or remove content that violates guidelines and provide feedback to the user.

Notes:

Estimated time:

2-3 weeks

Action performed

Click on the problematic recipe or content.

Expected outcome

Ability to edit the content, removing or modifying any violations while preserving the valuable parts. Provide clear feedback to the user about the changes made.

Action performed

Select the offending content.

Expected outcome

Delete the content that violates guidelines, ensuring it is no longer visible to users. Inform the user about the removal and the reason behind it.

Action performed

Use a designated feedback feature or message the user directly.

Expected outcome

Communicate with the user, explaining the guideline violations and suggesting improvements. Ensure the user understands why the content was edited or removed to promote better compliance in the future.

Story title

As a guest user, I want to be able to browse recipes on the website without the need to register or log in.

Notes:

Estimated time:

1-2 weeks

Action performed

Click the website's "Home" button section to nevigat.

Expected outcome

Ability to view a list of recipes, browse through various categories, and click the picture to see recipe details without being required to register or log in.

Action performed

Click on a specific recipe from the list while in guest user mode.

Expected outcome

Ability to view the full details of the selected recipe, including Cooking Instructions, ingredients without any registration or login barriers.

Action performed

Use the search functionality to look for specific recipes or ingredients.

Expected outcome

Ability to perform searches and access search results, making it easy to find relevant recipes without needing to create an account or log in.

Story title

As a cooking educator, I would like to see In-Depth Recipe Previews for Teaching

Notes:

Estimated time:

3-4 days

Action performed

User selects a recipe from the curated list.

Expected outcome

A preview of the recipe is displayed, including its title, cuisine category, and a brief description.

Action performed

User clicks on the "View Full Recipe" button within the preview.

Expected outcome

The user is directed to a detailed recipe page, which includes a comprehensive ingredient list, preparation steps, and suggested teaching notes.

Action performed

User scrolls through the detailed recipe page.

Expected outcome

The user can thoroughly assess the recipe's suitability for teaching purposes, considering factors like ingredient availability, complexity, and educational value.

Story title

As a professional chef, | want to be able to browse recipes by cuisine category so that | can explore recipes relevant to my expertise and interests.

Notes:

Estimated time:

2-3 days

Action performed

User selects the "Browse by Cuisine" option from the main menu.

Expected outcome

User is presented with a list of cuisine categories (e.g., Italian, Mexican, Chinese).

Action performed

User selects a specific cuisine category (e.g., Italian).

Expected outcome

A page with a curated list of recipes from the chosen cuisine appears.

Action performed

User clicks on a recipe to view details.

Expected outcome

The user can explore detailed information about the selected recipe, including ingredients, preparation steps, and user reviews.
